

Injuries Plague BYU In ASU Loss

(EMPE)—A battle-worn group of BYU football players left for Provo Sunday to regroup themselves for their last outing of the season this Saturday against San Jose State.

The Cougars, beset with injuries, barely survived with a 31-22 loss to Arizona State Saturday night.

Throughout the second half the Cougars were playing with one running back and had one player injured. Coach Tom Dempsey would have had to fill a vacancy with a lineman or offensive player.

The Cougars have lost six starters this season, and four are treating injuries after Sunday night's outing. Among the most offensive backs were

Hornell and Wally Hawkins and split end Phil Odle.

Defensive halfback Paul Satorius sprained his ankle prior to the game.

SPIRITED GAME

But aside from injuries, the Cougars played a spirited game before 38,183 fans and started things off like they were going to knock ASU out of Sun Devil Stadium.

Showing sterling defensive play in the opening period, BYU forced Arizona State to fumble once and throw passes into Cougar hands twice.

Linebacker Joe James intercepted the first pass and returned it 40 yards to the ASU seven-yard line. The Cougar drive was slowed there but Dennis Patera kicked a 28-yard field goal to put BYU out in front, 3-0.

James recovered J. D. Hill's fumble on the ASU 49-yard line, and defensive end Dave Alphin made a one-handed stab to intercept a Sun Devil aerial on ASU's 24-yard stripe which set up the second score.

ODLE SCORES

On third down Terry Sanford hit Phil Odle on a 22-yard pass to increase the Y lead to 9-0.

But from that point BYU's fortunes changed as the Sun Devils scored four touchdowns within a 12-minute period to take a 28-16 halftime lead.

It was Hill and Max Anderson—the "mini-fullback"—displaying their outstanding speed which wrecked the Cougar defense. Both Hill and Anderson scored twice.

The second Cougar TD came on Wes Hornell's one-yard plunge.

TIGHT DEFENSES

As the second half opened BYU's defense tightened up and held off the Sun Devil charges, but a tough ASU defense also contained BYU's offensive drives. One Cougar drive was stopped at the 10-yard line when Ken Call

U. Delegate Impeached...

Roy Musick Elected To WCA

The executive secretary of the Western Collegiate Association was ousted Saturday at a conference on campus.

A BYU delegate, Roy Musick, was elected to replace impeached John Jackman, of the University of Utah.

The two day conference of student body presidents and delegates from eight Rocky Mountain colleges also passed a number of resolutions and solidified the objectives of the WCA.

One of the purposes of the WCA has been to "facilitate cooperation and communication among member schools," according to the constitution.

Reed Coleman, WCA representative for BYU, was put in charge of hosting the conference, but expressed "disappointment" about not having received an agenda from the executive secretary.

The conference picked up momentum Saturday when proposals were passed to insure regular communications. Monthly newsletters, financial reports, and inter-campus phone calls were approved.

Bill Perkins, president of Arizona State and the WCA, knew "there were problems to be worked out," but after the election of a new executive secretary and the adoption of several proposals, he was optimistic.

The WCA was begun in 1964 under the leadership of Lynn Southam, last year's student body president. The organization was to promote a better understanding between the eight large universities of the intermountain west. Academic competition such as debates and college bowl were initiated through the WCA.

"One of the big programs was telelectures," according to Gilbert. "This alone would justify the organization."

The WCA will be initiating studies of residence halls, student rights, international students, and a possible exchange of students without paying out of state tuition rates.

Participating members of the association have been exchanging publications and sharing infor-

mation on problems common to the campuses.

"The continuance of the WCA rests on the ability of the executive secretary to establish fluent channels of communication between all members," expressed Gilbert. "Musick has the responsibility, and I think he will do a good job."

The WCA plans to hold its spring convention at Utah State, announced Perkins.

Jeff Tanner Blasts Universe

Bitter criticism was voiced against the Daily Universe in Thursday's executive council meeting.

"The garbage about turtles was on the front page," said Jeff Tanner, junior class president, "but practically nothing was written about the visit of representatives of the Armed Forces."

Several of the VP's mentioned the difficulty of receiving space in the school paper.

Stuart Collyer, executive assistant, reported the progress of the Intern Program to be "moving excellently." Over 130 people applied for Intern positions, although only 86 openings are available.

reference to Last 'til Wednesday

Editorial...

Tendency Toward Extremes

The following editorial appeared recently in the Church Section of the Deseret News.

When the Lord taught that we should be temperate in all things He gave us a valuable word of wisdom. There is a tendency on the part of nearly everyone to go to extremes in one way or another, that often we lose the true perspective of life.

Extremes appear in almost every phase of our daily affairs. Some of us are extremists in health, others in religion, some take their occupations to the point where they shut out the rest of the world as they devote themselves almost exclusively to making money.

Some are extremists in child care, others in neglect of children; some carry what they call patriotism to unwise ends, while others defy genuine patriotism and undermine the body politic.

And so it goes. If only we could control ourselves that we might be temperate in all things we would live happier lives and give far more enjoyment to our associates.

Extremism is a costly thing. Take the mother for example who over-indulges her child. If the youngster is a daughter her poor girl may never be allowed to live her own life. She may be mothered far beyond anything that is good for her, so that she never learns self-reliance and never makes a decision of her own.

If it is a son, the mother may so indulge him that he turns against parenthood in general, and women in particular. In one instance this sort of rebellion drove a son into a homosexual life in sheer defiance of all that he had learned as he grew up.

And then there are fathers who drive their sons into delinquency and violence by constant nagging. A youngster may be left in a state of bewilderment because everything he does is called wrong and therefore he never learns what is right.

Well-meaning parents can make nervous wrecks of their own children by failing to

control their tempera. They never find the important balance which only is obtained through being temperate in all things.

Religious extremists at times drive their children into apostasy as youngsters are literally surfeited with a spiritual diet which although tolerated at first becomes repugnant with "over-doses" from unwise parents.

Political extremists sow seeds of hate and discord. Extremism among them can hardly be less dangerous on one hand than on the other. Both can lead to dictatorship.

Health fanatics generally make themselves and other people uncomfortable. Instead of becoming the examples of good living they suppose themselves to be, at times they create quite the opposite effect.

Word of Wisdom extremists are much the same, never learning that there are other principles of the Gospel besides the fact that wheat is the staff of life. Do they never remember that what comes out of the mouth is far more important than what goes into it?

Style is another place where extremism occurs very frequently, often reaching the ridiculous.

Surely there must be a place for both modesty and good taste in manners and appearance.

It has been said that nothing is as uncommon as common sense. This certainly applies to the matters of extremisms.

The Lord gave us good minds, and expects us to use them. He tells us that the glory of God is intelligence. He asks us to serve Him with all our minds.

One would suppose from this that he expects us to use our mentality to preserve a good balance of thought and action, and avoid the extremes which never fail to develop unhappiness and misery.

"Being temperate in all things" is good advice from Him who is most intelligent of all, and who has placed justice, kindness, mercy and patience among the highest virtues.

BAPTISM BY IMMERSION

Dissapproval and concern were stated in a resolution by the North Carolina Baptist Student Union regarding the resolution of the Mecklenburg Baptist Association requiring candidates for membership to be baptized by immersion.

The resolution recognized the value of unity and autonomy but decried the regulation of doctrinal practices as a violation of a basic Baptist tenet, recognizing the ability of the individual to determine the mode of expression of his Christian Faith.

THE FLAG

Editor:

I am writing this letter in front of the administration building, after the lowering of the flag.

Let me say that if America's men are of the quality that I saw this evening, then we, as a nation have nothing to fear.

I have never been prouder to be an American than I am right now. May each of us develop in our hearts, the love, warmth, and devotion to our flag that each of these men showed in participating in this ceremony.

Scott said:

Breathes there the man with soul so dead,

Who never to himself hath said, This is my own, my native land?

Whose heart bath ne'er within him burned,

As those whose footsteps he hath turned,

From wandering on a foreign Strand?

Hopefully, not at BYU!

INCORRECT FACTS?

Editor:

The newspaper controversy, now raging, has struck the hearts of all state-oriented patriots, and it is gratifying to see that so many have risen to take arms

on this matter. When the question was first raised, I immediately set out to research the problem in the library and get to the truth. But, alas, before I could complete my research, other original scholars, endowed with greater speed and insight than myself, had already written their essays. My work, therefore, would now seem quite trite.

But, because we live and breathe by such scandals, I have decided to attack the newspaper-liticism from a different angle. It seems that Mr. Schmidt of the library staff, has attempted a great swindle on the academy. Let anyone take his letter too seriously, I would like to make it known that he makes a very false indictment of Mr. Dotson. He says that the Dotson letter has "some incorrect facts."

I checked Webster and found that the definition of fact is "a thing that has actually happened or is true" and "the state of things as they are, reality, actuality; truth." But then, the definition of incorrect is given as "not correct, specifically: a) improper, b) untrue; inaccurate; wrong; faulty." This means that the Dotson letter must contain some untrue truths, which by definition of truth, is impossible, and therefore Mr. Schmidt's letter has a shaky foundation, and attempts to indict Mr. Dotson for

something of which he is not guilty.

On no partial to either side of the controversy, but I do feel that an issue of such profundity and importance to the image of the university must be handled in fair and unequivocal terms.

COLA?

Dear intelligent Kays,

You are mistaken.

First of all, one can grow "fondly attached" to a turtle as well as a mouse, frog, or any other animal. Second of all, like the turtle, man is one of God's animals.

Should man have the right to survive? Well then, since there aren't any known cases of turtles being detrimental to man's welfare, turtles should also have the same right of survival.

Any of Utah's pedestrian fatalities are persons more than 65 years of age. Some of them have never driven a car. I don't understand the probability of poor visibility or dropping a car in the rain or at dark hours. Sure, they're pedestrians, but the Utah Highway Council asks all drivers to be specially alert for these older drivers. Simply having the right-of-way is mighty feeble excuse for driver to endanger another's life.

War Deaths Rise

Every eleven minutes an American is killed in traffic accidents. And it's a not-so-funny fact that many of them are so-called "good drivers." That's to say, they've gotten along pretty well up till now. But, today's traffic requires something more. Greater congestion, more fast moving cars on high speed expressways with a variety of complicated directions, make driving a lot tougher than it used to be. The answer—defensive driving—the techniques used by professionals

to keep out of trouble mile after mile. If you want to learn more about defensive driving, call the Utah Safety Council, 328-3851.

Two members of Sweden's Wimbledon team have signed letters of intent to enroll in Arizona State University. They are Ted Bredehoft, Bjorn Alven, ranked number one in his country as a junior player, and Hans-Fredrick Nordstrom, eighth-ranked last year.

The season for water skiing is over in Utah... It's over, that is, unless you drive your car on wet streets with bald tires or at high speeds... then you might have the widest ride of your life... or maybe death. The Utah Highway Council reminds you that your tires hydroplane... or lift off the road surface... when the road is wet. Check your tire tread and inflation now—BEFORE the heavy rains start. And slow down to prevent dangerous, unintentional water skiing with your car.

Y Frosh Humble Utes, 62-15

By John Apper

BYU's freshman football team used everything but head coach Dick Felt in romping to a 62-15 win over the University of Utah frosh.

It was the second thumping over the Utes this year as the Kittens won at Salt Lake, 55-13, to open their season.

It marked the third year in succession that the Cougar frosh have been unbeaten in intra-state competition. The Kittens also defeated Utah State this year, 29-9.

Scoring two touchdowns each for BYU against the Papooses were tailback Clyde Gilbert, wingback Neil Bingham and fullback Chris Reading.

Split end Chris Farasopoulos, tailback Keith Jackson and quart-

erback Mark Hulse also carried for TDs.

Gary Blankenship kicked eight out of nine extra points.

BYU broke into the scoring column in the second quarter against Utah and then exploded

for four quick TDs to take a 35-0 halftime lead. Coach Felt cleared his bench in the second half and it wasn't until the final period that the hapless Redskins could get on the scoreboard.

Grid Picker Repeat Winner

In the four years BYU students and the Daily Universe panel have been predicting college football games, only three times has a challenger repeated as winner.

Neil Hammer, a junior in Communications from Sny, Idaho, is the third to accomplish the feat, turning in a list with only two wrong selections on perhaps the toughest slate of games this season.

Of the permanent board, Sports Editor Gary Wood was best with 16-5 mark, followed at 8-7 by Associate Sports Editor Glen Willardson, the IBM 7090 and guests Mike Jackson, last week's winner and Ken Mitchell.

Gary Dayton was 7-8.

Varsity Cagers Overpower Frosh, 156-89

By John Apper
The head coach Stan Watts led from the confines of the box, BYU's varsity basketball team drubbed the Cougar Frosh night, 156-89, in the Fieldhouse.

Watts down and 27 to go? The varsity coach of Western Athletic Conference hoop mentors. The offense opens for the Cats at 2. When they journey to Provo University, the varsity players scored in

double figures with sophomore Scott Warner leading the way with 22 points. Bart Johnson, former high school first team All-America, led the yearlings with 28 markers. The varsity, showing off the poise and experience of last summer's Asian tour, jumped off to a quick lead over the obviously nervous Kittens and then put on an awesome array of offensive power with each player on the squad scoring at least twice.

Finland's second contribution to BYU basketball, Veikko Vainio, added 20 points to the frosh total and looked impressive at times. The 6-10 import was the top scorer in last summer's European Games. Vainio's teammate last summer, junior Kari Liimo, led the Cougar starters (Jim Eakins, Randy Scholten, Marty Lythgoe, and Doug Howard) with 16 points.

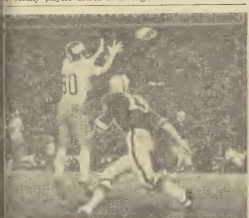

Orville Fisher also had 18 tallies for the varsity, good for second-high honors on the bigger and better-coordinated squad.

led. Another threat ended in Patera missed a field goal. Finally, BYU scored when he hit Lloyd Jacobson on a yard pass—but only 1:05 remained in the game.

BETTER STATS
Statistically, BYU had an edge on the Sun Devils, beating them 121 yards, total yardage, rushing yards, passing yardage, and interceptions.

Jacobson was the leading passer for the Cougars, catching eight for 132 yards and a touchdown. Odle had six receptions for 85 yards and a TD. Next on the list was Wakeley who had five yards for 100 yards.

BU's Jack Sanders electrified fans on a kickoff return, opening 63 yards to the opponents' 32-yard line.

An outstanding feature of the game was BYU's Cougar March-Band, which, along with the leaders, flag twirlers, songsters and Cosmo, sparked up high enthusiasm to cause ASU

to wonder whose home game it was.

Romney Kicks Off Campaign

BROOK (UPI)—Gov. George Romney kicked off his campaign for the Republican presidential nomination with a stinging on President Johnson's record on domestic policies.

Acceptable solution to the war in Vietnam cannot be found by the current administration because bound down with past mistakes," Romney said.

think I could find a better way to it than under present," said the 50-year-old Michigan governor, who threw his hat in the campaign Saturday.

THIRD IN POLL

Allpoll Poll released Sunday ranked Romney third among Republicans.

English Pound Drops In Price

DON (UPI)—Prime Minister Harold Wilson told Britons Sunday his government was forced to devaluing the pound from \$2.40 because of "successes of speculation."

and haggard, Wilson said the television cameras to that "it would have been impossible to go on dealing with successive waves of speculation borrowing for short periods of time, without attacking the cause of the speculation."

across the nation favored Richard Nixon three to one over Gov. Nelson A. Rockefeller of New York for the GOP presidential nomination, with Romney trailing. Dissident Democrats and Independents also backed Nixon.

Romney was favored by 14 percent of the Republicans, 17 percent of the Democrats and 14 percent of the Independents.

The Michigan governor attacked the President and defended his own policy statement in a nationally televised interview (CBS "Face The Nation").

WANTS OPEN HOUSING

On domestic matters, Romney said he would ask for a federal law guaranteeing Negroes the right to buy and rent housing of their choice if he is elected president.

Romney said it is "time to put up or shut up" on America's declared principles guaranteeing Negroes equal rights and equal opportunities.

Romney was asked to explain what he meant several weeks ago when he described Johnson as a "political animal."

"It means that the man's basic approach to things is political," Romney said. "This man has been in politics all his life. I know that this country needs a broader appreciation of things."

Romney expressed confidence that he can win the nomination. He refused to give a specific answer when asked if he could support Gov. Ronald Reagan of California in view of Reagan's hawkish position on the Vietnam war.

"I fully expect to support whoever the Republicans nominate and I expect to be that nominee," Romney said.
